Sr No	Date	Topic	Page no.	Sign
1	21/07/2023	Java Data Types A. Write a program to accept length and breadth as command line arguments and calculate area and perimeter of rectangle. B. Write a program to accept integer values for a, b and c which are coefficients of quadratic equation and find the solution of quadratic equation.	1	
2	07/07/2023	Use of Operators A. Demonstrate the use of various types of operators supported by Java. B. Write a program to reverse a string.	5	
3	14/07/2023	Use of control statements A. Write a program to find the smallest and largest element from an array. B. Write a program to count the letters, spaces, numbers, and other characters of an input string.	14	
4	21/07/2023	Using Classes and objects A. Design a class in java which includes instance methods and instance variables and initialize them by creating object. B. Demonstrate the use of constructors in java.	18	
5	04/08/2023	Inheritance A. Write a java program to implement Single level inheritance. B. Write a java program to implement Multi-level inheritance. C. Write a java program to implement Hierarchical inheritance. D. Write a java program to implement Multiple inheritance.	21	

6	28/07/2023	Polymorphism A. Write a java program to implement method overloading. B. Write a java program to implement method overriding.	29	
7	04/08/2023	Packaging and MultiThreading A. Create a package, add necessary classes and import the package in java class. B. Write a java program to implement multithreading.	35	
8	11/08/2023	Arrays A. Write a program for adding two matrices and print the sum for the same. B. Write a program for multiplying two matrices and print the product for the same. C. Design a class which contains instance methods to sort data in ascending and descending order in an array.	40	
9	17/08/2023	String Handling and Exception Handling A. Demonstrate the use of various methods of String and StringBuffer class to manipulate. B. Demonstrate the use of try catch and finally block to create and handle your own exception.	46	
10	17/08/2023	I/O Streams and File Handling A. Demonstrate the use of BufferedReader and Scanner classes for taking user input from console. B. Write a java program to read the student data from user and store it in the file.	51
